

AMR ADI

Flutter Developer | Backend Developer (Java / Spring Boot)

+963 996 598 693 • amreloadi62002@gmail.com • Lattakia, Syria • [LinkedIn](#) • [GitHub](#)

PROFESSIONAL SUMMARY

Motivated software engineer with over a year of hands-on experience in Flutter mobile development and Java Spring Boot backend development. Skilled at building responsive, cross-platform mobile applications and RESTful APIs. Experienced in working across the full software development life cycle, from design to deployment. Seeking a role where I can contribute to real-world products and continue growing as a developer.

EXPERIENCE

Backend Developer (Trainee) | Santechure

Oct 2024 – Present

Damascus, Syrian Arab Republic

- Building and consuming RESTful APIs using Java and the Spring Boot framework.
- Participating in a structured 6-month professional training program covering backend architecture and best practices.
- Collaborating with team members on API design, data modeling, and integration with frontend clients.
- Gaining practical experience with Spring Boot features including dependency injection, Spring Data JPA, and REST controllers.

PROJECTS

Chat App — Real-time messaging application with user authentication and live conversation support.

Tech: Flutter, Firebase (Auth, Firestore), Dart

Shop App — Mobile shopping list manager allowing users to add, organize, and track purchases.

Tech: Flutter, Dart, local state management

MealApp — Restaurant menu browser with category filtering and meal detail views.

Tech: Flutter, Dart, Navigator 2.0

Quiz App — Interactive knowledge-testing app with multiple question categories and score tracking.

Tech: Flutter, Dart

To Do App — Task management application for organizing and archiving daily work items.

Tech: Flutter, Dart, local storage

Tic Tac Toe — Two-player game with clean UI and game state management.

Tech: Flutter, Dart

Thynk Extension — Medical platform extension with backend services, medical code validation, and settings interfaces.

- Developed and enhanced backend services, implementing core business logic and RESTful API endpoints.
- Improved and extended validation logic for medical codes, ensuring data integrity and accuracy.
- Designed and built settings-related UI interfaces, bridging frontend and backend integration.

Tech: Java, Spring Boot, REST API, Medical Code Validation

EDUCATION

Bachelor of Science in Information Engineering

University of Lattakia, Syria

Oct 2020 – Sep 2025

Flutter Application Development Certificate

Udemy

2023

Dart Programming Language Certificate

Udemy

2023

SKILLS

Mobile Development	Flutter, Dart, Android
Backend Development	Java, Spring Boot, REST API Design
Programming Languages	Dart, Java, C++, JavaScript, Python, HTML, CSS, Kotlin
Backend Services	Firebase (Auth, Firestore, Storage), REST APIs
Tools & Version Control	Git, GitHub
Languages	Arabic (Native), English (Intermediate)
